

WAXO'LUX INTERIOR DETAILER

VERSION 1.0
Issue date: 17 May 2024
Language: English

Safety data sheet prepared from the supplied classification and technical data for the same vehicle interior surface-protection formulation (source revision dated 17 May 2024).

1

IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1 Product identifier

Trade name	WaxO'lux Interior Detailer
UFI	4513-30PS-000R-CQFD
Product type	Mixture

1.2 Relevant identified uses and uses advised against

Relevant identified use	Surface-protection and detailing product for compatible vehicle interior surfaces; industrial/professional use.
Uses advised against	Any use other than the identified use.

1.3 Details of the supplier of the safety data sheet

Supplier	WaxO'lux
Address	De Tweede Geerden 29H, 5334 LH Velddriel, The Netherlands
Telephone	+31 (0)85 500 5020
E-mail	info@waxolux.nl
Website	www.waxolux.nl
Responsible contact	info@waxolux.nl

1.4 Emergency telephone number

For an acute emergency, call 112. Netherlands: National Poisons Information Centre (NVIC), +31 (0)88 755 8000 (24 hours; accessible to professional healthcare providers only).

2

HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Hazard class	Category	Hazard statement
Skin sensitisation	Category 1	H317 - May cause an allergic skin reaction.

2.2 Label elements

Signal word
WARNING

Hazard statement
H317 May cause an allergic skin reaction.

Hazardous ingredient for labelling
2-Methyl-2H-isothiazol-3-one (methylisothiazolinone).

Precautionary statements

P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children. P103 Read carefully and follow all instructions. P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P272 Contaminated work clothing should not be allowed out of the workplace. P280 Wear protective gloves.

P302+P352 IF ON SKIN: Wash with plenty of water. P362+P364 Take off contaminated clothing and wash it before reuse. P333+P313 If skin irritation or rash occurs: Get medical advice/attention. P321 Specific treatment is required (see label). P501 Dispose of contents/container in accordance with applicable regulations.

2.3 Other hazards

The source data identify no applicable PBT or vPvB assessment result.

3

COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances

Not applicable (mixture).

3.2 Mixtures

Substance	Identifier	Content	Classification (CLP)
2-Methyl-2H-isothiazol-3-one (methylisothiazolinone)	CAS 2682-20-4 EC 220-239-6	<1%	Acute Tox. 3, H301/H311; Skin Corr. 1B, H314; Skin Sens. 1A, H317; EUH071

Acute toxicity estimates: oral LD50 100 mg/kg; dermal LD50 300 mg/kg. Specific concentration limit: Skin Sens. 1A, H317 at C >= 0.0015%. Detergent labelling: <5% non-ionic surfactants. See Section 16 for full hazard-statement text.

4

FIRST AID MEASURES

4.1 Description of first aid measures**Inhalation**

Provide fresh air. Obtain medical advice if symptoms occur.

Skin contact

The source states that the product is generally not irritating to skin. Because it is classified as a skin sensitizer, remove contaminated clothing, wash with plenty of water and obtain medical advice if irritation or rash occurs.

Eye contact / ingestion

No product-specific instruction is stated in the source data. Seek medical advice if symptoms occur and have the product container or label available.

4.2 Most important symptoms and effects

No further relevant information is available. An allergic skin reaction may occur.

4.3 Immediate medical attention and special treatment

No further relevant information is available. Treat symptomatically.

5

FIREFIGHTING MEASURES

5.1 Extinguishing media

Use carbon dioxide, dry powder or water spray. Fight larger fires with water spray or alcohol-resistant foam.

5.2 Special hazards arising from the mixture

Under certain fire conditions, traces of other toxic substances cannot be excluded.

5.3 Advice for firefighters

No special protective equipment is specified in the source data. Use protection appropriate to the fire conditions and avoid inhaling combustion products.

6

ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

No special measures are specified in the source data. Use the personal protective equipment described in Section 8.

6.2 Environmental precautions

Do not allow entry into drains, surface water or groundwater. Dilute with plenty of water only where appropriate and controlled.

6.3 Methods and material for containment and cleaning up

Absorb with sand, diatomaceous earth, acid binder, universal binder or sawdust. Place collected material in suitable containers for disposal.

6.4 Reference to other sections

See Sections 7, 8 and 13 for safe handling, personal protection and disposal information.

7

HANDLING AND STORAGE

7.1 Precautions for safe handling

No special measures are required when the product is used professionally and as directed. Avoid generating and breathing spray mist.

7.2 Conditions for safe storage, including incompatibilities

No special storage-room or container requirements are specified. Keep away from food and drink and protect from freezing.

7.3 Specific end use(s)

Interior surface-protection and detailing product. Follow the product label and workplace instructions.

8

EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

The source data identify no ingredients present in relevant quantities with workplace exposure limits requiring monitoring.

8.2 Exposure controls

Engineering controls	No additional controls are specified beyond normal safe handling.
General hygiene	Observe normal chemical-handling precautions. Wash hands before breaks and at the end of work.
Hand protection	Wear impermeable, product-resistant protective gloves. Confirm material suitability, breakthrough time, permeation and degradation with the glove manufacturer.
Eye/face protection	Wear tightly fitting safety goggles.
Body protection	Wear suitable protective work clothing.
Respiratory protection	Use suitable respiratory protection if spray mist is generated or ventilation is inadequate.

9

PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Physical state	Liquid
Colour	According to product specification
Odour	Characteristic
Odour threshold	Not determined
Melting/freezing point	Not determined
Boiling point / range	Not determined
Flammability	Not determined
Lower / upper explosion limit	Not determined
Flash point	Not determined
Decomposition temperature	Not determined
pH at 20 deg C	7.2
Dynamic viscosity	Not determined
Water solubility	Fully miscible
Partition coefficient n-octanol/water	Not determined

Vapour pressure	Not determined
Density at 20 deg C	1.01 g/cm3
Relative density / vapour density	Not determined

9.2 Other information

Auto-ignition	Product is not self-igniting
Explosive properties	Product is not explosive
VOC (EC)	0.00%
Solids content	0.0%
Evaporation rate	Not determined

10 STABILITY AND REACTIVITY

10.1 Reactivity

No further relevant information is available.

10.2 Chemical stability

No decomposition occurs when used as directed.

10.3 Possibility of hazardous reactions

No dangerous reactions are known.

10.4 Conditions to avoid

Protect from freezing and avoid uncontrolled aerosol formation.

10.5 Incompatible materials

No further relevant information is available.

10.6 Hazardous decomposition products

No hazardous decomposition products are known under normal conditions.

11 TOXICOLOGICAL INFORMATION

11.1 Information on hazard classes

Acute toxicity	Based on available data, the classification criteria are not met.
Skin corrosion/irritation	Based on available data, the classification criteria are not met.
Serious eye damage/irritation	Based on available data, the classification criteria are not met.
Respiratory or skin sensitisation	May cause an allergic skin reaction.
Germ-cell mutagenicity	Based on available data, the classification criteria are not met.
Carcinogenicity	Based on available data, the classification criteria are not met.
Reproductive toxicity	Based on available data, the classification criteria are not met.
STOT single / repeated exposure	Based on available data, the classification criteria are not met.
Aspiration hazard	Based on available data, the classification criteria are not met.

11.2 Information on other hazards

Substance	Source-list reference
Decamethylcyclopentasiloxane (D5), CAS 541-02-6	List II
Octamethylcyclotetrasiloxane (D4), CAS 556-67-2	Lists II and III

The source identifies these substances in its endocrine-disrupting-properties section without providing concentrations or a mixture-level endocrine-disruptor classification.

12 ECOLOGICAL INFORMATION

12.1 Toxicity

No further mixture-specific aquatic toxicity information is available.

12.2 Persistence and degradability

No further relevant information is available.

12.3 Bioaccumulative potential

No further relevant information is available.

12.4 Mobility in soil

No further relevant information is available.

12.5 Results of PBT and vPvB assessment

Not applicable according to the source data.

12.6 Endocrine-disrupting properties

See Section 11.2 for the substances identified by the source.

12.7 Other adverse effects

Netherlands water-hazard classification: B(4), slightly harmful to aquatic organisms. The source states that the product is generally not hazardous to water.

13 DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Do not dispose of with household waste and do not allow the product to enter drains. Dispose of product and contaminated packaging in accordance with applicable regulations. Water, with cleaning agent if necessary, is the recommended packaging-cleaning medium.

14 TRANSPORT INFORMATION

The product is not subject to ADR, ADN, IMDG or IATA dangerous-goods transport regulations according to the source data.

14.1 UN number	Not applicable
14.2 UN proper shipping name	Not applicable
14.3 Transport hazard class(es)	Not applicable
14.4 Packing group	Not applicable
14.5 Environmental hazards	Not applicable under transport regulations
14.6 Special precautions for user	Not applicable
14.7 Maritime transport in bulk	Not applicable

15 REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation

CLP	Classified and labelled according to Regulation (EC) No 1272/2008
SVHC Candidate List	None of the ingredients is listed in the source data
Netherlands water-hazard classification	B(4): slightly harmful to aquatic organisms

15.2 Chemical safety assessment

A chemical safety assessment has not been carried out.

16 OTHER INFORMATION

16.1 Full text of hazard statements referenced in Sections 2 and 3

Code	Text
H301	Toxic if swallowed.
H311	Toxic in contact with skin.
H314	Causes severe skin burns and eye damage.
H317	May cause an allergic skin reaction.
EUH071	Corrosive to the respiratory tract.

16.2 Abbreviations

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road. ATE: Acute Toxicity Estimate. CLP: Regulation (EC) No 1272/2008. IATA: International Air Transport Association. IMDG: International Maritime Dangerous Goods Code. PBT: Persistent, Bioaccumulative and Toxic. REACH: Regulation (EC) No 1907/2006. vPvB: very Persistent and very Bioaccumulative. VOC: Volatile Organic Compounds.

16.3 Document basis and notice

This English WaxO'lux presentation is based on the supplied safety data for the same formulation, source version 1 revised 17 May 2024. Classification, composition and technical values have not been recalculated. The information is for health, safety and environmental purposes; users must verify suitability and follow applicable laws, label instructions and workplace procedures.
