

WAXO'LUX QUIK WAX

VERSION 1.0
Issue date: 28 July 2026
Language: English

Safety information prepared from the supplied data for the same base formulation (source revision 3, 28 July 2026). Colour and odour identify the final WaxO'lux variant.

1

IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1 Product identifier

Trade name	WaxO'lux Quik Wax
Product type	Mixture

1.2 Relevant identified uses and uses advised against

Relevant identified use	Ready-to-use spray wax and gloss enhancer for compatible vehicle exterior surfaces.
Uses advised against	Any use other than the identified use. Do not apply to surfaces where reduced grip or visibility may create a hazard.

1.3 Details of the supplier of the safety data sheet

Supplier	WaxO'lux
Address	De Tweede Geerden 29H, 5334 LH Velddriel, The Netherlands
Telephone	+31 (0)85 500 5020
E-mail	info@waxolux.nl
Website	www.waxolux.nl
Responsible contact	info@waxolux.nl

1.4 Emergency telephone number

For an acute emergency, call 112. Netherlands: National Poisons Information Centre (NVIC), +31 (0)88 755 8000 (24 hours; accessible to professional healthcare providers only).

2

HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

The product is not classified as hazardous according to Regulation (EC) No 1272/2008 (CLP), based on the supplied source data.

2.2 Label elements

Hazard pictograms None	Signal word None	Hazard statements None required	Precautionary statements None required by the source classification
---------------------------	---------------------	------------------------------------	--

The product is not subject to hazard labelling under CLP according to the source classification.

2.3 Other hazards

The source data state that the mixture does not have PBT, vPvB or endocrine-disrupting properties.

3

COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances

The source information identifies the formulation as 100% inert material without reportable identifiers or hazardous classifications.

3.2 Mixtures

No hazardous mixture ingredients are identified in the supplied source data.

4

FIRST AID MEASURES

4.1 Description of first aid measures

No effects requiring special first aid measures are expected. The following are practical measures for contact with a chemical product, even where it is not classified as hazardous.

General

If in doubt or if symptoms occur, contact a physician and show this document. Obtain immediate medical assistance for severe symptoms.

Eye contact

Rinse cautiously with running water. Remove contact lenses if present and easy to do. Continue rinsing. Obtain medical advice if symptoms persist.

Skin contact

Wash with water. Remove contaminated clothing if necessary. Obtain medical advice if symptoms persist.

Ingestion

Rinse mouth. Do not induce vomiting. Obtain medical advice if symptoms occur.

Inhalation

Move to fresh air if spray mist causes discomfort. Obtain medical advice if symptoms persist.

4.2 Most important symptoms and effects

No episodes of damage to health attributable to the product have been reported.

4.3 Immediate medical attention and special treatment

If acute or delayed symptoms occur, consult a physician. Running water should be available for skin and eye washing.

5

FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable media	Carbon dioxide, foam, dry chemical powder or water spray.
Unsuitable media	None specifically identified.

5.2 Special hazards arising from the mixture

Do not breathe combustion products.

5.3 Advice for firefighters

Cool containers with water spray. Wear complete protective firefighting clothing and self-contained breathing apparatus. Collect contaminated firewater and prevent it from entering drains. Dispose of residues in accordance with applicable regulations.

6

ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Use suitable respiratory protection if fumes, mist or airborne material are released. The same advice applies to processing personnel and emergency responders.

6.2 Environmental precautions

Prevent the product from entering drains, surface water or groundwater.

6.3 Methods and material for containment and cleaning up

Contain with earth or inert material. Collect as much material as possible and remove the remainder with water. Dispose of contaminated material in accordance with Section 13.

6.4 Reference to other sections

See Sections 8 and 13 for personal protection and disposal information.

7 HANDLING AND STORAGE

7.1 Precautions for safe handling

Review this safety information before handling. Prevent uncontrolled release to the environment. Do not eat, drink or smoke during use. Avoid unnecessary inhalation of spray mist.

7.2 Conditions for safe storage, including incompatibilities

Keep in clearly labelled, tightly closed containers. Store away from incompatible materials; see Section 10.

7.3 Specific end use(s)

Ready-to-use quick wax and gloss enhancer for compatible vehicle exterior surfaces. Follow the product label.

8 EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

No occupational exposure limits or other control parameters are stated in the source data.

8.2 Exposure controls

General controls	Apply the safety measures normally used when handling chemical products.
Hand protection	None required under normal conditions of use.
Skin protection	None required under normal conditions of use.
Eye protection	None required under normal conditions of use. Avoid direct spray toward the face.
Respiratory protection	None normally required unless indicated by the workplace chemical risk assessment or where spray mist accumulates.
Environmental controls	Control process and ventilation emissions to ensure compliance with environmental requirements.

9 PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Physical state	Liquid
Colour	Blue - final WaxO'lux variant specification
Odour	Bubblegum - final WaxO'lux variant specification
Melting/freezing point	Not available
Initial boiling point	Not available
Flammability	Not available
Lower/upper explosion limits	Not available
Flash point	Not available
Auto-ignition temperature	Not available
Decomposition temperature	Not available
pH	7-8.5
Kinematic viscosity	Not available
Dynamic viscosity	5 cP
Solubility	Not available
Partition coefficient	Not available
Vapour pressure	31.66 hPa
Density / relative density	Not available
Relative vapour density	Not available
Particle characteristics	Not applicable to a liquid

9.2 Other information

No additional physical-hazard or safety-characteristic information is available.

10

STABILITY AND REACTIVITY

10.1 Reactivity

No particular reaction hazards are expected under normal conditions of use.

10.2 Chemical stability

Stable under normal conditions of use and storage.

10.3 Possibility of hazardous reactions

No hazardous reactions are foreseeable under normal conditions of use and storage.

10.4 Conditions to avoid

No specific conditions are identified. Observe the usual precautions for chemical products.

10.5 Incompatible materials

No information is available.

10.6 Hazardous decomposition products

No information is available.

11

TOXICOLOGICAL INFORMATION

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

The source data state that the product does not meet the classification criteria for any of the following hazard classes:

Acute toxicity	Not classified
Skin corrosion/irritation	Not classified
Serious eye damage/irritation	Not classified
Respiratory or skin sensitisation	Not classified
Germ cell mutagenicity	Not classified
Carcinogenicity	Not classified
Reproductive toxicity	Not classified
STOT - single exposure	Not classified
STOT - repeated exposure	Not classified
Aspiration hazard	Not classified

11.2 Information on other hazards

Based on the available source data, the formulation is not listed in the main European lists of potential or suspected endocrine disruptors with human-health effects under evaluation.

12

ECOLOGICAL INFORMATION

Use according to good working practice. Avoid uncontrolled release. Notify the competent authorities if the product reaches waterways or contaminates soil or vegetation.

12.1 Toxicity

No information is available.

12.2 Persistence and degradability

No information is available.

12.3 Bioaccumulative potential

No information is available.

12.4 Mobility in soil

No information is available.

12.5 Results of PBT and vPvB assessment

The source data state that the formulation does not have PBT or vPvB properties.

12.6 Endocrine-disrupting properties

Based on the available source data, the formulation is not listed in the main European lists of potential or suspected endocrine disruptors with environmental effects under evaluation.

12.7 Other adverse effects

No information is available.

13 DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Reuse where possible. Neat product residues should be treated as special non-hazardous waste. Disposal must be performed by an authorised waste contractor in accordance with national and local regulations. Contaminated packaging must be recovered or disposed of in accordance with applicable waste requirements.

14 TRANSPORT INFORMATION

The product is not classified as dangerous goods under ADR/RID, IMDG or IATA regulations.

14.1 UN number or ID number	Not applicable
14.2 UN proper shipping name	Not applicable
14.3 Transport hazard class(es)	Not applicable
14.4 Packing group	Not applicable
14.5 Environmental hazards	Not applicable
14.6 Special precautions for user	Not applicable
14.7 Maritime transport in bulk	Not intended to be carried in bulk

15 REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation

Seveso category	None
REACH Annex XVII restrictions	None stated for the product or contained substances
Explosives precursors Regulation (EU) 2019/1148	Not applicable
REACH Candidate List / SVHC	No SVHC identified at concentrations of 0.1% or more
REACH Annex XIV	None
PIC / Rotterdam / Stockholm	None

15.2 Chemical safety assessment

No chemical safety assessment has been performed or made available for the formulation.

16 OTHER INFORMATION

16.1 Hazard statements

No hazard statements are assigned to the product under the supplied CLP classification.

16.2 Abbreviations

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road. CLP: Regulation (EC) No 1272/2008. IATA: International Air Transport Association. IMDG: International Maritime Dangerous Goods Code. PBT: Persistent, Bioaccumulative and Toxic. REACH: Regulation (EC) No 1907/2006. RID: Regulations concerning the International Carriage of Dangerous Goods by Rail. SVHC: Substance of Very High Concern. vPvB: very Persistent and very Bioaccumulative.

16.3 Document basis and notice

This English WaxO'lux presentation is based on the safety information for the same base formulation, source revision 3 dated 28 July 2026. The safety classification and technical values have not been recalculated. Colour and odour were specified for the final WaxO'lux variant as blue and bubblegum respectively.

The information describes the product for health, safety and environmental purposes and does not guarantee specific product properties. Users must verify suitability for the intended use and comply with applicable laws, label instructions and workplace procedures.
